# **Large Employers and Manufacturers Guide for Springfield and Sangamon County, Illinois**

The levels of employment shown in this publication are based on each company's number of full time equivalent employees in Sangamon County. The number of full time equivalent employees equals the number of full time employees plus half the number of part time employees. To be included in the book, the company must be a local manufacturer or their number of full time equivalent employees must be greater than or equal to twenty.

This publication is intended to give an accurate and complete portrayal of those firms in Springfield & Sangamon County employing approximately 20 or more workers, and to act as a sales tool for the area as a whole in attracting new businesses. This document was designed with the utmost attention given to detail and accuracy in order to increase awareness and understanding of the importance of these firms in Sangamon County. However, it is inevitable that errors and omissions will occur, so we welcome and encourage comments and recommendations on the contents of this publication. This list is compiled periodically by the Quantum Growth Partnership to provide the most up-to-date data and include new information as it becomes available.

The sources used to develop this document include one direct-mail survey of Sangamon County businesses by the Quantum Growth Partnership. Firms were asked to note corrections and provide updated information on a survey form, which included the company's information from previous editions. As stipulated on the survey form, firms, which did not respond with changes or updates, are represented by the information previously on file. Subsequent select telephone surveys were conducted to further insure accuracy. Certain businesses that would qualify for inclusion in this publication elected to be omitted to retain privacy and/or security.

The Quantum Growth Partnership is thankful and appreciative of the numerous companies that participated in the development of this document.
